Personal Statement

With a wealth of experience in cyber security and building websites as well as van driving, I am looking to secure a new employment role where I can utilize my skills and potential. I take a huge amount of pride in my work and have proven to be reliable, committed, and very trustworthy, offering loyalty and hard work. I focus on high standards and always maintain health and safety, making a positive contribution towards all of my working roles. I enjoy working with colleagues within a team but can also work independently. I would welcome the opportunity to undertake any training offered to gain new skills and knowledge to become an asset to your team.
